

MOLO AUDACE

The symbol of a city that embodies elegance and culture, a preferred destination extending towards the sea, Molo Audace is set in the heart of Trieste, a sturdy catwalk where you can enjoy a truly unique view. CIR has infused the charm of the pier paving stones, a crossroads of history and artistic inspiration, with the ceramic material, thus creating a new surface, suited to the needs of today's architecture, but rich in details, giving a new and personal touch to any environment.

Molo Audace is named after the first ship of the Italian Navy that docked in the port of Trieste in 1918, and embodies a privileged entrance, and merges an imposing architectural context with the most tangible seafaring symbols. Moorings and bollards, ropes and knots, compass roses and anchors, the chromatic and material universe of CIR **Molo Audace** depicts this world rich in tradition, combining neutral stone and earth tones with intense and rich red and black, accent colours that define the style of the collection.

Molo Audace by CIR is a versatile proposal for interiors and exteriors, featuring a wide and modular size range available with natural finish and with R11 grip surface, ideal for outdoor flooring. One of the distinctive traits of this series is its modularity, as is evinced in the Versailles composition, a mix of sizes designed exclusively to enhance the uniqueness of the surface.

Technology

Fine glazed porcelain stoneware

Colours

Bocca di lupo (dark grey), Grigio di scotta (light grey), Bitta di porto (Beige), Terra d'ormeggio (earth tone), Rosso d'amante, Nero galera
