

FOREVER COLOR

Starting point for every form of creativity, colour is the soul of the new collection by Cir Manifatture Ceramiche, which selects and transforms 11 tints into vital elements for interior design.

Forever Color arises from the study of colour and, thanks to its ability to characterize every space, represents the perfect match with the different materials used in interior design, combined with which ceramic – porcelain stoneware – makes every single shade tangible.

By reviving the tradition of small sizes, Cir encapsulates Forever Color in a 20x20 cm square tile and a 6x25 cm brick tile, expanding compositional possibilities through different surfaces, finishes, and decorative solutions. The iconic speckled texture of terrazzo, reinterpreted in the Pepper version, reveals a pleasant three-dimensionality, creating a rich and intricate surface. Meanwhile, the solid colors express their full versatility in High gloss and Matte finish options.

The decorative inspirations of Forever Color range from a vibrant, contemporary reinterpretation of Venetian terrazzo — *Terrazzo* — where graphics interact with the shades and textures of the ceramic collection, to designs that play with strong color contrasts — *Gemstone* — and combinations of glossy and matte finishes — *Bubble* — to create elegant geometries through reflected light.

Technology

Porcelain stoneware

Surfaces & Sizes

High gloss – 6x25 cm

Pepper – 6x25 cm, 20x20 cm.

Matte finish – 6x25 cm, 20x20 cm

Colours

White, Ivory, Beige, Brown, Grey, Black, Pink, Blue, Red, Green, Yellow

Decors 20x20 cm

Terrazzo: White, Grey, Black

Bubble: White, Ivory, Beige, Brown, Grey, Black, Pink, Blue, Red, Green, Yellow

Gemstone: White, Grey, Black

Use

Residential and commercial construction

Production

Made in Italy
