

## SHOWALL

Ceramic wall tiles are the stars of a new decorative concept, which gives creativity free rein and complements the needs of current and contemporary design. **Showall** draws inspiration from the fascinating decorative aesthetic of wallpaper, featuring all the added advantages of ceramic, from durability to ease of use. Walls are transformed into original and refined furnishing elements, which can be used to create modular and continuous pattern solutions for a remarkable scenographic effect.

Elegant geometric motifs, sinuous designs dedicated to nature and exquisite patterns inspired by the world of fabrics are just a few of the many **Showall** decorations, designed to suit every interior design style. Design solutions that are truly surprising: a dining room turns into a garden; a hotel lobby takes on a hypnotic or romantic vibe. The collection is made up of 22 patterns created with cutting-edge digital printing techniques on modular porcelain stoneware slabs in the 60x120 cm size, easy to transport and lay.

The wide selection of themes and vibes, enhanced by a trendy colour palette, allows you to clothe surfaces with taste and creativity, imparting a bold personality to both public and residential architectural spaces.

**Showall** decorative panels can be freely combined with Serenissima and Cir Manifatture Ceramiche collections, to bestow a unique touch to each and every project.
